

Salt Dough

You will need:

- 2 cups of plain flour
- 1 cup of salt
- 1 cup of water

Instructions:

1. Mix the salt and flour in a bowl.
2. Slowly add water and keep mixing until the mixture is firm and mouldable, but not sticky.
3. If the dough is sticky, add more flour.
4. Tip the dough out onto a board and knead until smooth (sprinkle flour onto the surface so that the dough doesn't stick).
5. Now the fun part! Shape the dough into the form that you like, and use tools such as pencils or cutlery to add detail.
6. Once you are happy with your finished sculpture, bake at 150°C for about an hour depending on the size and shape of the sculpture.
7. Once the dough has cooled, you can paint it!

Tip

- You can scale the ingredients up or down depending on the amount of dough you require.
